ABOUT *Bite Me!*

I moved to Devon in 2003 with my husband and parents. We moved to Copplesstone in Mid Devon to build a new life and enjoy all the wonder that Devon has to offer. After having my second child in 2007 I embarked on a journey to create a small business that I could manage along with bringing up my two children.

The idea behind my products was to create good quality and great tasting food made by using as much local produce where possible, thus producing a quality end product and in doing so helping local Farmers and businesses whilst keeping the food miles to a minimum. With two children, it was my priority to ensure the end product was as tasty as possible, my thoughts were that if my pies, quiches and cakes were good enough for my family they will be good enough for your family as well.
